

Sustainability on Penryn Campus

Zero waste

There is no option for taking food away unless you bring your own Tupperware or cups

Electric

- Two stations consisting of ten e-bikes have been installed on Penryn Campus
- There are 12 electric vehicle charging points on campus

Shop Local

- We use local suppliers to reduce emissions
- 90% of stock is locally sourced in our Sustainability Café

Reduce

44% of our suppliers have committed to reducing carbon by 2027

Rot

2.5 tonnes of food waste have been converted into electricity, fuel, and fertiliser

Plant

Trees and wildflowers around the grounds come from seed or cuttings from other local trees

Solar

More than 1700 new solar panels were installed across Penryn Campus in Summer 2022
